

### Ascentify Assess is enhanced to include self-registration functionality for Recruiting

Ascentify's assessment solution is part of an overall product architecture that integrates both assessment and training functions. This holistic approach enables organizations to better integrate and optimize their Recruiting and Training functions. Recruiting functions can be standardized and the Training department has access to individual assessment results to optimize the learning plan for each new hire.

The process starts with Recruiting. Candidates come to a company branded portal to register. You define the meta-data you want to capture during the recruiting process. Once the required information is filled in, the application automatically authenticates the candidate.

**Recruiting Self Registration Form**

**Ottawa\_Recruiting\_Centre**

Last Name:

\* First Name:

\* Recruiter's email:

\* Login:

\*ID Type:  ✓

\*Education:  ✓

\*Source:  ✓

I have read and agree with the Terms and Conditions.

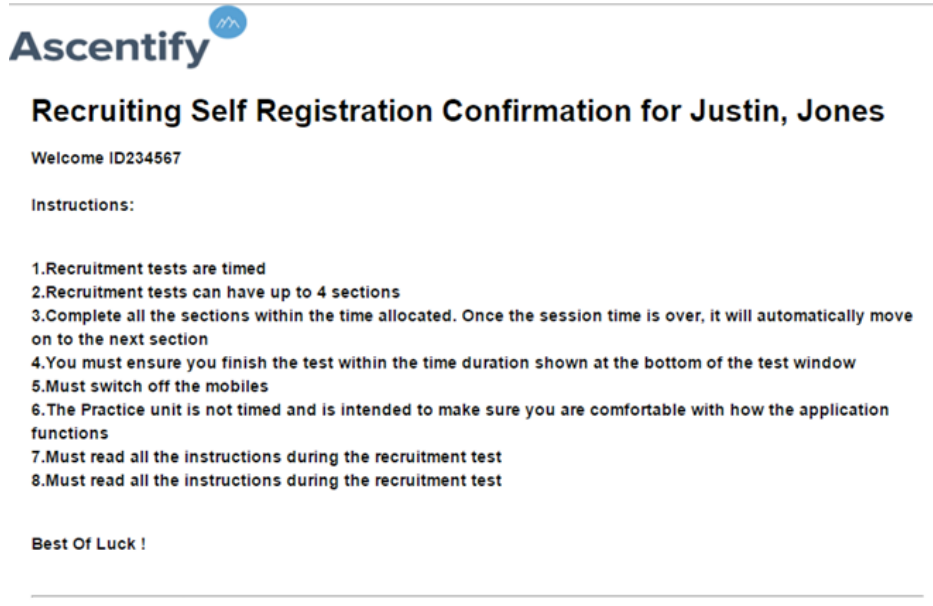

Dropdown menu for ID Type: PAN Card, Driver's License ✓

Dropdown menu for Education: Graduate ✓, Undergraduate

Dropdown menu for Source: Consultant, Job Fair, Web Portal, Campus, Walk-in ✓

Upon authentication, the candidate (or the recruiter) receives a confirmation email and the candidate is redirected to a confirmation landing page where assessment activities are launched. Both the landing page and the confirmation email are customized with your content.

Once the assessment is launched, the candidate is brought to a portal to complete their respective assessments.

Ascentify Assess is configurable so that you can create your own assessments to meet the hiring or testing requirements of your various business units. Our assessments can test job skills, language (verbal and written), grammar, and comprehension. In addition, you can create your own custom question categories. Assessment results are available immediately - either in a summary format or in a detailed view.

We are more than happy to collaborate on assessment design when required.
